About Me

I am an analytical professional with a background in business operations and hands-on experience in data analytics. Conducted an airline passenger satisfaction analysis project to identify key factors affecting customer satisfaction. Proposed recommendations targeting a 10% relative increase in passenger satisfaction to 47.80% within six months. Developed strategies focusing on improving service quality and operational performance. Proficient in Microsoft Excel, SQL, and Tableau, with strong problem-solving, critical thinking, and communication skills. I am eager to apply my analytical skills and business knowledge to support informed decision-making and business growth.

Education

Gunadarma University **Sep 2012 - Sep 2016**

Bachelor's Degree, Information Technology | GPA: 3.28

RevoU **Jun 2026 - Oct 2026**

Full Stack Data Analytics

Gained knowledge in identifying business problems, developing hypotheses, and applying statistical analysis techniques, including descriptive statistics and regression and other statistics methods using Ms. Excel, SQL, and Python, as well as creating data visualizations with Tableau.

Working Experiences

Business Owner | Barberpedia Sukmajaya **Feb 2026 - Current**

- Managed daily barbershop operations to ensure smooth business activities and customer satisfaction.
- Developed pricing strategies, promotional offers, and accommodation packages to attract customers.
- Managed inventory, product purchases, and supplier relationships to control operational costs.
- Analysed customer preferences and sales trends to identify business opportunities.

Business Owner | Villa Taman Kelinci **Oct 2023 - Current**

- Managed daily villa operations to ensure smooth business activities and guest satisfaction.
- Tracked sales, revenue, and operational expenses using Microsoft Excel and Luna POS to analyze financial records, control costs, and improve business performance.
- Improved booking procedures and customer service processes to increase operational efficiency.

Sales Operations & Bid Management | Digiserve by Telkom Indonesia **Jan 2018 - Sep 2023**

- Analysed and processed sales data using Ms. Excel and Salesforce to identify potential business opportunities and support targeted sales strategies across specific customer segments.
- Managed tender processes, including bid documentation, proposal coordination, and submission requirements to support business opportunities.
- Led cross-functional project handover processes involving Sales, Pre-Sales, Project Management, and Operations teams to ensure alignment, effective communication, and smooth project transitions.

Network Operations Center | PT. Wira Cipta Sejahtera **May 2017 - Jan 2018**

- Monitored network performance and system availability to identify potential issues, anomalies, and service disruptions.
- Analysed network alerts, incident logs, and performance data to identify recurring issues and support troubleshooting activities.
- Investigated and escalated network incidents to relevant technical teams to support timely issue resolution and minimize service disruptions.

Project Experiences

Passenger Satisfaction Analysis

- Analyzed 129,880 airline passenger records using Python through data cleaning, EDA, correlation analysis, and segmentation to identify key factors affecting passenger satisfaction.
- Developed data visualizations using Tableau to compare service ratings, passenger segments, and operational performance.
- Proposed data-driven recommendations targeting a 10% relative increase in passenger satisfaction, from 43.45% to 47.80% within 6 months, prioritizing digital experience, in-flight services, and operational reliability.

Skills

Technical Skills: Clustering Analysis, Forecasting, Hypothesis, Descriptive Statistics, Pivot, Dashboard
Software: Ms. Excel, SQL, Python, Tableau, Power BI
Soft Skills: Teamwork, Problem Solving, Critical Thinking
Languages: Bahasa Indonesia (Native), English (B1)
